NRT2X

Description:

Round Twisted Nomex Cord NRT-2X

Part Number:

NRT2X

Specification:

Round Twisted Nomex Cord, Size 2, Finish X

Color: ----- Natural

Coating: ----- Uncoated

Putup: ----- 1 lb

Minimum Break: 70 lb

Elongation: ----- 40%

Yield (Nominal): 490 yd/lb

Diameter: ----- 0.045"

Material Properties:

Twist furnished under this data sheet does not melt and does not propagate flame. At about 800°F, it carbonizes and forms a tough char. The yarn used in this braid is unaffected by most acids. It has good resistance to alkalis, and excellent resistance to mildew, and aging. It also has good abrasion resistance. □
